Side Broom

The side broom on the rider sweeper sweeps dust and debris from corners and along base boards. A metal cover provides protection to the side broom and the drive mechanism. The side broom and the main broom can both be replaced without tools.

Panel Filter and Shaker

A panel filter with over 34 square feet of filter area provides excellent filtration. The filter can be easily removed without tools for cleaning or replacement. An electric filter shaker removes much of the particulate matter from the filter and drops it into a 69 quart rolling hopper.

- Effective on carpet and/or hard floor surface
- Capable of sweeping up to 40,000 square feet per hour
- Front wheel drive offers excellent maneuverability
- Removable fine particle filter
- Front flap for picking up bulky items
- Rolling debris hopper
- 24 volt battery system, available with optional maintenance free batteries
