Variable Speed Control

Speed is controlled by simply squeezing the hand grip, the harder you squeeze the faster you go. The variable speed drive system is highly productive and less fatiguing in open areas.

Side Broom

Absolutely vital to any sweeping program is the side broom. The side broom sweeps along baseboards and into corners drawing out dust and soil. With extremely dusty floors the side broom can be lifted and stopped to prevent dust from being raised back into the air.

- Polyethylene body & hopper assembly
- Built in hour meter and battery meter
- Manual filter shaker and side broom
- Great air movement with a 250 CFM impeller fan
- Removable fine particle filter or choose an optional water proof filter
- Effective on carpet or any hard floor surface
- 12 volt battery system, available with optional maintenance free batteries
